

currenza[®]

RECYCLER

Grow Same Location Sales 10 to 15 Percent

Real Innovation. As bill validation was 15 years ago, the Currenza[®] Recycler is game changing technology for the Vending Industry. The Recycler is setting new standards for consumer convenience and operator profitability.

Changes the "Buying Decision" for Consumers. The ability to pay with a \$20 and receive bills back as change gives consumers an entirely new reason to spend cash at your machines.

Profitability. Double digit sales increases are common. Instead of collecting a pile of singles, get ready to see \$5's, \$10's, and \$20's in your cashbox.

High Value Transactions. Recycling enables high value transactions by aligning acceptance/payout with higher price points.

World Class Reliability. The Currenza[®] Recycler is simply the most reliable Recycler on the market. Extensive laboratory testing, field testing and design enhancements have delivered unmatched performance.

Want more bills in your Cash Box?
Then give some back to consumers.

Currenza[®] RECYCLER

Crane Payment Solutions has a vision... That Recycling will become as common as bill validation is today. Consumers simply demand the convenience the Currenza[®] Recycler provides - and the profitability of your vending business demands no less attention. Today's Vending Consumer carries \$10's and \$20's and does not want to be weighed down with a pocket full of change. Sales opportunity is passing by if your vending machines do not accept higher denominations and recycle bills back as change. Field pilots and customer experience with Currenza[®] Recyclers shows that same location sales increases of 10-15% are common. Couple this with the host of benefits described below and the power of Recycling becomes obvious.

Functional Capabilities

- ✓ Accepts \$1, \$5, \$10, and \$20 bills and returns \$1 or \$5 to consumers as change.
- ✓ The only 30-note capacity Recycler on the market provides superior protection against bill starvation.
- ✓ User configurable par level for recycled bills (1-30).
- ✓ High security, non contact bill recognition (inductive & optical).
- ✓ Fastest bill recognition in the industry - 1.7 seconds.
- ✓ Full accountability with Streamware VendMax when paired with Currenza[®] Coin Changer with DEX Audit Board option.

Consumer Features

- ✓ Dramatic blue LED's attract consumers from across the room and create confidence with machine functionality.
- ✓ Recycling delivers the "Ultimate Vending Experience" allowing consumers pay with what is in their pockets and receive notes as change.
- ✓ Superior acceptance rates reduce consumer frustration.
- ✓ Recognition speed reduces transaction time and increases confidence.
- ✓ Coupon capable to generate consumer loyalty and reward programs.

Service Features

- ✓ 10 second firmware updates using BlueChip[®] SIM card.
- ✓ Two-digit external display indicates bill count to route driver.
- ✓ Load and Unload buttons allow convenient management of Recycling cassette.
- ✓ Convenient DIP switches to customize configuration.
- ✓ Service mode setting for convenient trouble shooting.
- ✓ Non-contact recognition means less frequent routine maintenance of sensor array.
- ✓ Unibody metal chassis delivers unmatched durability.
- ✓ Pinch rollers vs. Belts to transport notes means fewer service calls due to wear.
- ✓ Lightweight, removable, drop-resistant cashbox.

Business Strategies with Currenza[®] Recycler

Grow Sales- Delivering the convenience of the Currenza[®] Recycler to consumers drives same location sales higher.

Increase Prices- Accepting higher denominations and dispensing bills as change creates the flexibility to increase product prices.

Eliminate Changers- Installing Currenza[®] Recyclers in a bank of equipment can eliminate the need for changers. The capital cost, labor for money handling and "two stage" buying process for consumers can all be eliminated.

Reduce Cost- BlueChip[®] is 12 to 50 times faster to upgrade software vs. competitive systems. Labor savings can be huge during currency upgrades.
